

US\$200,000 payment received from Toro Gold

Predictive Discovery Limited (ASX: PDI) is pleased to announce that Toro Gold Limited (“Toro”), the Company’s joint venture partner in Cote D’Ivoire¹, has transferred US\$200,000 (approximately A\$260,000) to Predictive. The payment has been made now following resolution of several conditions precedent in a detailed Shareholder Subscription Agreement which was executed by both parties earlier this year.

PDI’s Cote D’Ivoire subsidiary, Predictive Discovery Cote D’Ivoire SARL (“Predictive CI”) holds four highly prospective exploration permits in Cote D’Ivoire - Kokumbo, Ferkessedougou, Boundiali and Kounahiri - covering a total area of 1,533km². The Kokumbo permit has a gold soil anomaly covering 1 km² close to the historic Kokumbo mine with many values exceeding 1g/t Au, historical drill results of up to 3m at 12g/t Au and historic trench results of up to 64g/t Au.

Toro is earning a 51% share in Predictive CI by spending US\$1 million in aggregate across Predictive CI’s permits. Toro is undertaking an active work program on all four permits, consisting of a large program of soil sampling, totalling about 4,000 samples so far, as well as systematic geological mapping and rock chip sampling. The work to date has been focused mainly on the Kokumbo permit (Figure 1). Results of this work will be announced as they become available.
